Request No.	
10.	Minnesota Power is different from many Minnesota utilities in that its customer base is largely very large customers. If the PPA is for the benefit of one or more large customers, will the cost of the project be apportioned to the large customers based on their percentage of the PPA?

Response:

No. Minnesota Power allocates costs in accordance with rate allocators approved by the Minnesota Public Utilities Commission for wholesale and retail customers and applicable allocations within all retail customer classes, including Large Power.

These requests are continuing, and if new or additional information is discovered, please supplement your responses as soon as possible.

Electronic format preferred, via email or CD.
