Project Description

Minnesota Power proposes to:

- Build approximately 220 miles of 500 kilovolt (kV) transmission line from the Manitoba, Canada – Minnesota border to its Blackberry Substation in Itasca County
- Expand its Blackberry Substation

The proposed project would be located in Beltrami, Itasca, Koochiching, Lake of the Woods, and Roseau counties.

Public Hearing Information

- The meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- Public Utilities Commission, Department of Commerce, and Minnesota Power staff will be available to answer questions about the permitting process and the project.
- Citizens will be able to offer oral comments, written comments, or both into the record.
- The hearing will last until everyone has the opportunity to speak or until the scheduled end time, whichever comes first.
- The same information will be presented at each meeting.
- Learn more about attending a public hearing at mn.gov/puc/aboutus/index.html

Submit Comments

Topics for Public Comment:

- Is the proposed project needed and in the public interest?
- What are the costs and benefits of the proposed project?
- What are the environmental and human impacts of the proposed project and how can these impacts be addressed?
- Are there other project-related issues or concerns?

Note: Minnesota Power's route permit application for this project is being handled separately, in PUC Docket Number *E-015/TL-14-21* and OAH Docket Number *65-2500-31637*. Comments on the route permit application and the proposed routes should be submitted to these dockets.

Comment Period: September 9, 2014 through December 3, 2014 at 4:30pm.

Please include the Docket Numbers (PUC - E-015/CN-12-1163 and OAH - 65-2500-31196) in the subject line of all communications. Communications that do not include the Docket Numbers may be misdirected and may not be entered into the hearing record.

Important

Comments will be made available to the public via the Public Utilities Commission's website, except in limited circumstances consistent with the Minnesota Government Data Practices Act. The Commission does not edit or delete personally identifying information from submissions.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve a certificate of need and a route permit. Minnesota Power submitted the certificate of need application in October 2013. The Commission's decision-making process takes about twelve months.

Minnesota Power's route permit application for this project is being handled separately, in PUC Docket Number E-015/TL-14-21.

The Department of Commerce prepared an environmental report for this project. The environmental report studied the potential human and environmental impacts of the proposed project and alternatives, as well as ways to address impacts. The environmental report was issued in July 2014.

Judge O'Reilly will use all the information in the record, including written comments and comments received at the public hearings, to write a report for the Commission. The report will include findings, conclusions, and recommendations about the need for this project. After receiving the Judge's report, the Commission will schedule a meeting to make a final decision on the need for this project, expected by May 2015.
